Do your teeth stop you from smiling?

Do you want straight teeth and a beautiful smile?

Do you want nearly invisible braces?

If the answer is 'YES' then ask your dentist today about Quick**StraightTeeth**™.

Braces! Most people immediately conjure up an image of 'metal train-tracks' or the 'Ugly Betty' look!

Thankfully, using Quick**StraightTeeth**™ there is no compromise on aesthetics or results. Our braces look great, feel comfortable and work quickly to give you a beautiful new smile.

Quick**StraightTeeth**™ uses either tooth coloured brackets and wires, or clear aligners, to ensure that once placed in the mouth, they are almost invisible. Most people will be unable to tell you are wearing braces at all.

Quick**StraightTeeth**™ gives you fast results because we do not address major orthodontic issues. Instead, the system works to gently level and align your front teeth only to giving you straight teeth...quickly!

SOME OF OUR RECENT RESULTS

This lady was particularly unhappy with the upper tooth that was stuck on the inside and the general crowding of her front teeth. She had a QST fixed brace for 6 months and she loves the result!

This individual disliked two teeth that were biting the wrong way around. She wore a QST fixed brace to correct her bite over a period of four months. During this time the lower teeth were also straightened.

This lady was unhappy with an instanding incisor, that gave the impression she had a missing tooth. As a result she was very embarrassed to smile. She wore a QST fixed brace for five months. She now loves to smile and show off her straight teeth.

The parents of this young boy were concerned about how the upper front teeth were biting the wrong way around. He did not want to wear a fixed brace. Therefore, a removable QST brace was worn for three months to correct this problem .
